

RAINBOW WATCH

It's always a good time to start a super bright, fun (and delicious!) project!

SUPPLIES NEEDED:

Scissors, Airheads, Airheads Xtremes, Cutting Tools

STEP 1.

Place 2 Airheads Xtremes in a line on top of a blue raspberry Airheads bar. Wrap the bar around the Xtremes (your watch band) to seal, leaving a tiny amount of space to insert band later, and trim.

STEP 2.

Cut all sorts of shapes (we used a star!) from Airheads bars and attach them to your watch face.

STEP 3.

Wrap the watchband around your wrist, insert the end of the band through an Airheads bar and trim if you need to.
